

REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's
Vegetable Compound
Saved Her Life
and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling, inflammation and congestion, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleepless nights, and had neither strength nor energy. There was always a fear and dread in my mind. I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all is pleasure and happiness in my home."—Mrs. J. HAM, R. F. D. 1, Box 22, Shamrock, Missouri.

MORTUARY

Nelson H. Swan, for the past ten years a resident of Albuquerque, and a prominent real estate dealer, died at half past three o'clock yesterday afternoon, aged 71 years. Mr. Swan succumbed to cancer of the stomach after an operation recently performed had failed to arrest the disease. A native of Ohio, Mr. Swan was prominently identified with real estate activity in this city since coming here ten years ago from Washington, Ohio. He is survived by his wife, a son, William Swan of Paso Robles, Cal., and two daughters, Mrs. N. T. Ware of Albuquerque and Mrs. George Fleckner, whose home is in California. The funeral will take place tomorrow, Friday afternoon at 2 o'clock from the First Methodist church, of which deceased was an active member. Rev. C. O. Beckman, the pastor, will conduct the service. Interment will be in Fairview cemetery.

TO SAVE EYES

Is the Object of This Free Prescription—Try It If Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use: 5 grains Opton (1 tablet). 2 ounces Water. Use three or four times a day to bathe the eyes. This prescription and the simple Opton system keeps the eyes clear, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Ruppert's drug store or any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.

DONA ANA COUNTY TO VOTE SATURDAY ON MORE ROAD BONDS

Leading Road Building County of State Will Probably Add \$50,000 to its \$100,000 Road Indebtedness.

Las Cruces, N. M., June 10.—The road bonds of Dona Ana county, which means practically the entire population—are looking forward to another record vote when they go to the polls on Saturday, June 13. On that date the county votes on its second bond issue for road purposes, this time in the sum of \$50,000. A year and a half ago the county approved, by a record vote, a road bond issue of \$100,000, the greater part of which has now been expended on the construction of gravel roads which, according to the opinion of State Engineer French are the best roads in the state. Having had this taste of better highways, the people of the county have found by experience what better roads mean. In many localities the farmers are hauling their crops—chiefly alfalfa—for about 50 per cent or less of what it formerly cost to get them to the railroad. Farmers in the towns have increased greatly since the better roads were built. Nothing is advertising the progressive spirit of the county more than its good roads. For this reason, the citizens of the county are anxious to approve the second bond issue for \$50,000 on which they vote next week.

New Road to Deming. The Dona Ana county board has completed arrangements for the construction of the new air line road between Las Cruces and Deming, due to cooperation with the Luna county road board. A large part of this road has already been graded from Deming to the Dona Ana county line, and within the next 30 days the road will be completed in an air line to Las Cruces. This will bring the commercial interests of Las Cruces and Deming into much closer touch and will work to the interests of both counties. The road will be constructed by a tractor and graders, and the route for the road is now being laid out by county road Engineer Meriwether.

MCKINLEY COUNTY BUYS NEW ROAD GRADER

Lots of Work Being Done by County Road Board on Highways Into Western Town.

The Gallup Republican says: Work on the county roads is progressing finely under the management of the county road board of which Mr. C. C. Manning of this city is chairman. Over \$4,000 in money was collected last year as road tax and this sum is being expended in the purchase of a new large six-horse grader and other necessary equipment and for labor and material necessary for repairing the bridges and grading the roads where ever it is thought the greatest amount of good can be done. Several new cut offs have been surveyed and in as far as possible the work is done to improve what will be the permanent "National Highway" within McKinley county, and by co-operating with other county road boards and with Indian service it is hoped to extend the good roads system to the surrounding towns for which Gallup is a natural supply point.

To Improve Shiprock Road. Superintendent Shelton of the Shiprock Indian agency gives the information that he has asked for an appropriation of \$25,000 to improve the road between Shiprock and Gallup. This sum expended by Superintendent Shelton will mean a fine piece of road as it is already in pretty fair condition.

GOOD ROADS.

STATE BOSSING THE BUILDING OF 12 NEW BRIDGES

Structures in Several Counties Now Under Way Under Supervision of the State Highway Engineers.

Santa Fe, N. M., June 10.—The state engineer's office at present is busily constructing twelve bridges in various counties in New Mexico. Contracts have just been let for two of three bridges to be built for Gauda-Lupe county, one at Puerto de Luna and another at Anton Chico. Construction also is under way or to begin at once, in Socorro, Mora, San Juan and Sandoval on bridges over which the state has supervision. The location for a bridge over the Vermejo in Colfax county was staked out by the engineer's assistant, Haynes Howell, last week.

CONTRACT LET FOR NEW SAN JUAN COUNTY BRIDGE. Santa Fe, N. M., June 8.—The county commissioners at their meeting here last week opened the bids for construction of a steel bridge across the mouth of La Plata river. The following bids were received: Millard Bridge Co., \$15,511; Omaha Bridge Co., \$4,780; Frazier & Graves, \$4,611; T. E. Peterson, \$8,462. Ed Foster, \$2,100 for the fill, approaches and piers, exclusive of the steel work. Levy Construction Co., \$4,500.

The last named firm was awarded the contract, the specifications calling for a steel span of 120 feet, resting on concrete piers.

This bridge will be on the state highway between San Juan county and Gallup.

LUNA COUNTY MAY VOTE \$50,000 FOR ROADS

County Road Board Has Built 76 Miles of Road in Eight Months and Results Arouse Enthusiasm.

Deming, N. M., June 10.—Enthusiasm by the work done by the county road board within the past eight months, during which seventy-six miles of new roads have been built, Luna county people are taking actively to the proposition to bond the county for \$50,000 for needed road construction. The results obtained by Dona Ana county with its first bond issue of \$100,000 has helped create favorable sentiment for a bond issue here, and if it is approved, the bond issue will carry. The county now has a complete road building equipment and all it needs to continue the successful road campaign is funds.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

FAVORS WORLD MONEY PLAN TO STOP PANICS

London Financier Believes Fixed Gold Reserve Depositories Would Give Protection to All Nations.

THINK \$15,000,000 AT SIX CENTERS SUFFICIENT

New Currency System of United States Held to Be of Small Direct Influence on Commerce of the World.

Paris, June 11.—The new federal reserve act will introduce greater flexibility into the financial system of the United States, but it will have only a small indirect, if not negligible effect internationally, according to P. F. Hogg of the Chamber of Commerce of London, who addressed the International Congress of Chambers of Commerce here today, arguing some sort of international monetary reserve to ward off panics. International machinery, he said, should be set up through the great banks, whereby there should be maintained at various points reserves of gold for use in times of panic. "A committee of the great banks," he said, "would in event of a panic direct a stream of gold towards the disturbed spot."

He continued: "Judging by the effect which the movement of a moderate amount of gold has under moderate conditions either to create or allay anxiety, I am of the opinion that \$15,000,000 held at each of six large financial centers or the equivalent in billion of local gold coin would be sufficient for practical purposes. This gold would be specially set apart and held exclusively for the purposes of the proposed plan. We should have by this means a fund of \$90,000,000 always available for the purposes of the scheme. Let it be observed that the \$15,000,000 which would be hypothecated be lodged at the point of disturbance, should that point be one of the places included in the scheme, would be available at once. It would form a species of financial 'first aid' and could be released immediately to relieve the pressure."

Great Britain, France, Germany, the United States, Russia and Austria were the countries suggested for participants in the plan and a committee consisting of a representative from each would be empowered by a majority of votes to control absolutely the disposition of the special reserves of gold.

STANDING ARMY IS SOURCE OF HUGE EXPENSE

Austro-Hungarian Government Faces Bankruptcy as Result of Effort to Keep Pace With World Armament.

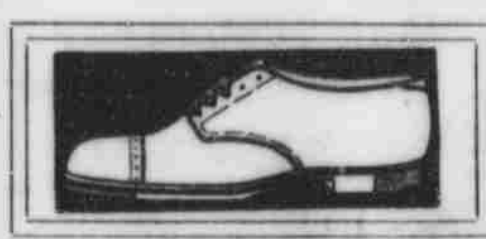

Vienna, June 11.—The Austro-Hungarian taxpayer has become gravely alarmed over the fact that the military estimates for the coming year are nearly double the army and navy expenditure of seven years ago. From government sources there have come frequent assertions that relations with other countries are most peaceful and amiable. If this be true, the people are wondering why the government comes forward with a military budget which could not be much greater if the empire was on the verge of war.

The sum asked by the minister of war is \$188,000,000. The army wants

Paris Says:

White Linen or Crepe is the Last word in style, when accompanied by White footwear

Its perfectly natural then for you to expect to get the white footwear here. Just now we have some very exceptional values in the famous Sea Island Duck. Many shapes and varieties are made in white this year. We have the very choicest of a large selection at very low prices.

Stateson's

\$115,000,000, while the navy will get along with \$36,000,000. The remaining \$35,000,000 will be spent on the militia and reserve forces. Seven years ago the total budget for the three branches of service amounted to only \$36,000,000, a sum considerably less than is now demanded for the army alone.

The popular protest is that the advance is utterly out of proportion to the normal increase in the nation's financial and commercial wealth, but the most disquieting feature is that the present budget contains no extraordinary items, so there is no reason to expect that next year's estimate will bring any relief.

At the time of the war scares, during the annexation of Bosnia in 1908 and during the more recent Balkan wars, the ministry of war took advantage of the situation to procure everything that was needed to bring the army up to a high state of efficiency, and enormous sums were spent on two mobilizations. The rate of spending then inaugurated seems to have been kept up, and each succeeding budget has been larger than the one before. Immense sums have been put into new guns and technical equipment for the engineers and field forces.

While it is contended that the general increase in the cost of labor and materials has much to do with the increasing budgets, the press has lately been discussing the influence exerted by the ring of manufacturers of steel and armaments.

Since Austria-Hungary started to build ships of the Dreadnought type three years ago, the taxpayers have been astonished to find that there are costing many millions more than warships of similar size and power built by Germany and Great Britain. The iron and steel and other materials employed are all considerably dearer than in the other two countries named. It is charged that the government is being held up by a ring of manufacturers. Since it is the settled policy of the various government departments not to buy anything outside the country if it can be obtained in Austria-Hungary, it has been difficult to find a remedy for the situation.

Apparently the manufacturers' ring constitutes a very powerful organization. The shareholders include many influential and exalted persons. The shares in one of the principal ship-buildings concerns have risen in the past few years from \$80 to \$1840, an increase of 2300 per cent.

NORWEGIANS SORE AT IMMIGRATION REGULATIONS

Sharp Criticism in Parliament of Treatment Accorded Fifteen-Year-Old Boy by U. S. Authorities.

Christiana, June 11.—Treatment of Norwegians at the immigration station at Ellis Island, New York, has been receiving criticism in parliament. Several members of the storting have made speeches in which they cited instances of ill-treatment of Norwegian immigrants under detention there and the foreign minister was asked pointedly what he intended to do about it.

The discussion arose from a story recently published here of a 15-year-old boy, who was detained at Ellis Island for a whole month before he was sent back to Norway. It was asserted that he was kept prisoner and that only one of several letters which he wrote ever reached its destination.

The protesting members in parliament did not criticize the immigration laws of the United States, but they insisted that Norwegians detained under these laws should be properly treated. M. Thien, in answer to the interpellations, quoted some of the most important sections of the American immigration acts and said that too often the Norwegian emigrant failed to comply with the regulations because of ignorance. He agreed that there were cases of exceptional severity and cited that of a Norwegian woman and her four children who were detained because the paper by which her father-in-law guaranteed that the family would not become a public charge was dated a year before their arrival. She was allowed to enter while her case was on appeal, after her relatives had raised \$500 bail for each child, but in the meantime one of the children died in the hospital through careless treatment, according to charges of

the Norwegian legation in Washington. The minister pointed out what a difficult situation the United States has to face, with thousands of immigrants, a great many of whom were illiterate, constantly pouring into her gates. He then agreed that the foreign office should get full information about the treatment of Norwegians at Ellis Island which should be published, with extracts from American immigration laws, warning Norwegians of the risks they run in attempting to enter the United States.

A Handy Suggestion. "John," asked Mary, "what is a synonym?" "A synonym," said John, "is the word you use when you can't spell the other one."

STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place, writes: "I have been taking Thedford's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit. Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Thedford's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. N. C. 12
